

## Discussion with Liposuction Surgeon

1. How many years of experience do you have as a Plastic Surgeon?
2. How many liposuction procedures have you done?
3. Where will the surgery be conducted?
4. Is the clinic prepared and certified to assist liposuction surgeries?
5. Do you have a licensed anesthetist on board?
6. What are the most common complications that your patients have had? And how were they handled?
6. Do you have a "before" and "after" photo album for this procedure?
7. Am I a good candidate?
8. What can I expect after the surgery?
9. What precautions would I need to take pre-surgery and post-surgery?
10. How many days will I take to recover fully?
11. What should I do for a quick recovery?
12. Will the shape and appearance of my body change over time? If yes, how?
13. What are the risks involved in this procedure?
14. What treatment option/ technique will be used for me?
15. Is non-surgical body contouring/ fat reduction an option for me?
16. How does liposuction impact pregnancy?
